

I am writing in regards to my favorite radio station, KLOVE. I think this station is an important part of the community as it is uplifting & a very big part of my day. I feel that if KLOVE is put on a LPFM broadcaster it may be harder for me to find and listen to. I know that several people have been encouraged by this station and it is an important part of our neighborhood. I feel there are enough sector programs out there and not enough Christian stations. Please, I beg, do not change KLOVE let it stand as is.

Thank you
